

nowSecure Protect delivers compliance and security for greater organisational agility.

The ability to see security and compliance performance clearly, and easily assimilate regulatory change, can create an immense competitive advantage.

Leave competitors to continue doing the things the old fashioned way whilst you harness the latest technology to minimise risks and costs.

Choose nowSecure for comprehensive next-generation network, virtual, cloud and endpoint protection underwritten by Nowcomm elite security expertise.

- ✓ Apply threat intelligence to rapidly detect and counter sophisticated multi-pronged attacks.
- ✓ Integrate local and remote network devices and data to protect everything, everywhere.
- ✓ Unify and push out security policy enforcement at even the largest scale.
- ✓ Deliver network blocking based on geolocation.
- ✓ Managed by Nowcomm security experts to keep up to date with the latest configurations and best practice.

Detect and stop threats with our stable of best of breed cyber security products, nowSecure Protect

Secure Endpoint

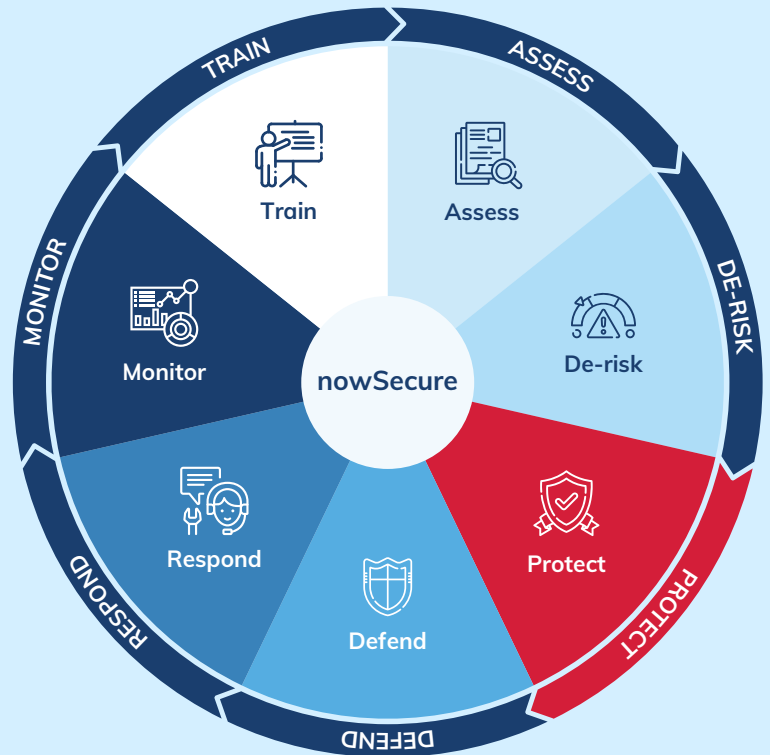

Secure Endpoint integrates prevention, detection, threat hunting and response capabilities in a single solution, leveraging the power of cloud-based analytics.

Umbrella

Umbrella is a secure internet gateway that provides the first line of defence against threats from the internet, anywhere users go. It delivers visibility into all cloud services with the ability to block risky applications.

Secure Access by Duo

Verify users' identities, gain visibility into every device, and enforce adaptive policies to secure access to every application securing your on premise and cloud based infrastructure and applications.

Minimise costs, extend your team and maximise protection with nowSecure Protect Managed:

Security Experts

Extend your team with professional cybersecurity experts that can deliver regular security checks, reports, reviews and updates to keep you secure.

Cost Savings

Choose nowSecure Protect Managed to provide the protection your organisation needs by giving you access to responsive services, industry-leading tools and seasoned security professionals without the hefty price tag and management overhead of hiring your own full-time team.

Maximum ROI

Maximise return on investment by addressing the most pressing threats and the highest risks and compliance requirements specific to your company.

Focus on Business

Reduce complexity associated with maintaining a cybersecurity system, and free up resource to concentrate solely on core business needs.
