

# nowSecure Respond helps you to face cyber incidents with confidence.

nowSecure Respond mitigates damages, improves cybersecurity, and maintains stakeholders' trust.

**Cyber-attacks happen every day, even to companies with up-to-date systems and software.**

It is becoming increasingly difficult to keep an organisation secure and deal with the impact of a cyber incident. It could be you're experiencing the start of an attack, in the midst of a full-scale attack that is compromising your organisation, or something just doesn't feel quite right with your security and you need the opinion of a specialist to give you peace of mind.

## nowSecure Respond for rapid and effective response in the face of a cyber-attack.

nowSecure Respond is a monthly subscription service from Nowcomm that provides a 24/7 hotline for cyber related issues just like these. The service gives you access to an expert security team so, should the worst happen, you have the specialists on hand to limit the impact to the business and your customers.

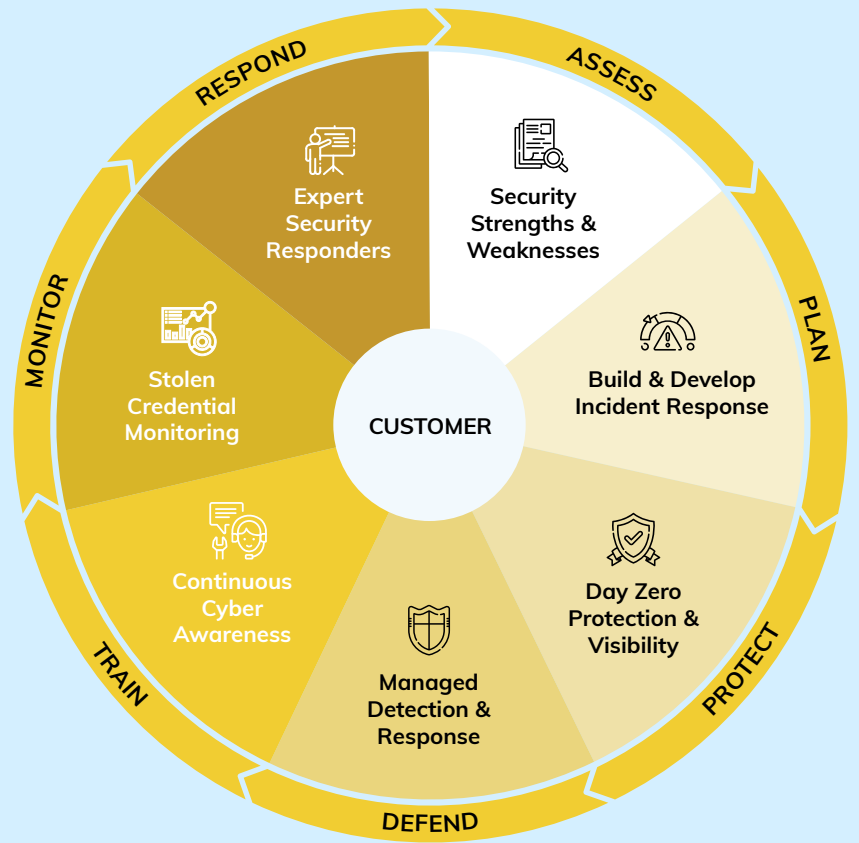

- ✓ Fast and effective response to reduce the impact of a cyber security incident.
- ✓ Access to UK-based cyber security experts available 24/7 to put your mind at rest.
- ✓ Comprehensive investigation and triage followed by swift, robust remediation measures.
- ✓ Reliable, expert guidance in the time of crisis.
- ✓ Comprehensive documentation available for compliance.
- ✓ Ongoing monthly security update and quarterly assessment with recommendations to prevent future attacks.
- ✓ General advice and guidance right through to the deployment of a specialist team of experts to your site.

# Our nowSecure Respond service offers access to highly trained security experts that are by your side every step of the way:

## 24/7 Cyber Helpdesk

The help desk operates with security experts certified to the highest level. Armed with threat intelligence from Cisco Talos, they have the expertise to act fast. With over 15 years' experience in the security industry the team is extremely skilled in the processes, tools and technologies to keep you safe.

# Act fast, recover quickly and prevent future attacks with nowSecure Respond:

### Rapid Attack Response

Experts can be deployed when and where you need them to help track and clean up all traces of the attack vectors, contain the threats, prevent further spread of the attack, and get you back on track.

### Remediation Fund

The remediation fund is prebuilt into your plan per annum. This time is used as a banked time fund and activated only when cyber-attack response is called down.

### Swift Recovery

We will work with your team to take the appropriate actions to remove any infected systems from the network and any malicious code, so you can restore all your data.

Our experts help you understand how the issue emerged and the new environment is strengthened to prevent future recurrence. Full post attack reports give you the detail and assurance you need that the recovered environment is free from infection and confidence to go back online.

### Ongoing Management

Need help managing your security going forwards? Nowcomm has a range of security services to suit all organisations.
