

Empower your employees to work effectively and safely from anywhere.

The way we work has changed. Work is no longer where you go, it's what you do.

With employees based in multiple locations, organisations are struggling to deploy a collaboration platform that fits their needs.

Older, traditional networks aren't built to support the technology demands of today's workforce and the future of hybrid work. Therefore, digitally enabled collaboration is critical to maintain a competitive edge amidst a constantly shifting business and technology landscape.

97% businesses say that collaboration tools are now essential to their operations. With this in mind, it is more important than ever to not only provide your employees with a high quality experience and easy to adopt technology but also leverage the analytics tools that provide full visibility of call quality metrics and activities.

nowCollaborate Hybrid Work increases your agility with experiences that empower your workers to work anywhere.

- ✓ Work anywhere with flexible and secure access and collaboration
- ✓ Work from home with secure and collaborative work experiences that adapt to employee job needs and are inclusive of their strengths and preferred work styles
- ✓ Work in the office with transformed and managed workspaces that connect people in new ways, while supporting employee health and well-being
